CT 200h ACCESSORIES

Genuine Lexus accessories
for an individual way of life

LEXUS

LEXUS

INDIVIDUAL

Full hybrid performance. Lexus sophistication. The new CT 200h is a synthesis of advanced technologies and sensory engagement. Created with an environmental conscience, it combines smooth yet dynamic driving with class leading refinement. Genuine Lexus accessories extend the experience even further.

Designed specifically for Lexus, the accessories introduce extra touches of individuality. They enhance personal interaction by offering choices for added style, practicality and technical innovation. Reassuringly, Lexus accessories integrate seamlessly. Their functionality is smooth and efficient, and the quality is as pronounced as the CT 200h itself.

Storage and Transport	12
Safety and Protection	16

DESIGN

A. 16" FUJŪ ALLOY WHEELS

Powerful sporty design adding a new dimension to the CT 200h's on-road presence. Lexus alloy

wheels are precision engineered for low weight, high strength and long lasting good looks.

B. WHEEL LOCKS

Replacing one nut on each wheel with a Lexus wheel lock maximises alloy wheel security. A rounded profile and coded key make the locks virtually impossible to remove with a conventional spanner.

C. LOWERING SPRINGS

Designed and engineered by Lexus to complement the CT 200h's shock absorbers. Lowering springs reduce the road to car height and so create a compelling, sporty, low-slung appeal.

D. 17" ZENGA ALLOY WHEELS

Inspired by the CT 200h's streamlined profile, these Lexus alloy wheels have a powerful yet sophisticated visual appeal. They are strong, lightweight and optimally balanced for road-holding stability.

DESIGN

A. REAR BUMPER PROTECTION PLATE

Style and practicality combine as one. With its attractive natural aluminium finish, the rear bumper protection plate guards bumper paintwork against scratching when sliding heavier loads in or out of the trunk.

B. SIDE SILLS

Made with a high quality chrome finish, Lexus side sills integrate seamlessly along the lower edges of the doors and so add a compelling visual highlight to the CT 200h's sculpted contours.

C. MIRROR COVERS

The side mirror covers extend the CT 200h sports theme even further. Their carbon-look finish and aerodynamic contours maintain design harmony while presenting a distinctive extra touch of individuality.

TECHNOLOGY

A. HOMELINK®

For added personal security, Homelink® enables the operation of up to three home automation systems via a permanently mounted in-car control. For instance, it can be programmed to activate security lighting and open or shut powered gates and garage doors.

B. DAB

The Lexus DAB upgrade enables access to high quality digital audio broadcasting in those countries where reception is available. The extended choice of radio stations appears on the Electro Multi-Vision display, which is operated by Remote Touch.

INTERIOR

A. FOOT REST

Especially designed to enhance passenger comfort. With its adjustable height settings and relaxing soft velour covering, the Lexus foot rest is an ideal accompaniment for any journey.

B. RUBBER FLOOR MATS

Lexus rubber floor mats provide the ultimate carpet protection against mud, water and grime. A special fixing mechanism holds them firmly in place and feature a non-slip surface pattern.

C. TEXTILE FLOOR MATS

Luxurious and practical. Lexus textile mats are made of acuvelour, which complements the sound absorbing qualities of the CT 200h's carpets, and are available in Black.

INTERIOR

A. SCUFF PLATES

Lexus scuff plates add a stylish interior design detail while also providing tough protection for the door sill paintwork. They are finished with brushed aluminium inserts and discreet illumination.

Carbon graphite

The look of sports power and performance.

B. C. D. INLAYS

The look is one of style and individuality. Lexus inlays are precision shaped to seamlessly integrate with the CT 200h's interior contours. They are available in a choice of three finishes.

Dark Brown ash burl wood

For that distinctive touch of traditional luxury.

Tropical bamboo

Contemporary finesse with a hint of exclusivity.

STORAGE AND TRANSPORT

A. VERTICAL CARGO NET

So simple in concept and yet reassuringly practical. The vertical cargo net clips on to pre-fitted hooks in the trunk and will hold smaller items neatly in place.

B. HORIZONTAL CARGO NET

Luggage or bags sliding in the trunk can be a distraction to the CT 200h's ultra quiet ride. The horizontal cargo net provides a convenient time-proven solution.

C. DOG GUARD

Clipping neatly on to pre-fitted hooks, the floor to ceiling guard helps create a comfortable travelling space for a dog while preventing it accessing the passenger area.

D. ASH TRAY

Lexus accessories are all about choices. The ash tray features a precision fitted sprung lid that clicks firmly shut to help retain odours and maintain a tidy appearance.

E. TRUNK LINER

With a non-slip surface pattern and raised edges, the rubber trunk liner provides tough carpet protection against mud, dirt and spilled liquids. It is ideal for walking boots, sports-wear and children's paraphernalia.

STORAGE AND TRANSPORT

A. EASY CLICK BIKEHOLDER

Lightweight lockable steel design for carrying two bicycles. Its 'Easy Click' system simplifies installation and removal, allows tilting for trunk access and enables fold-flat storage. Complete with a lights and licence plate holder.

B. ROOF RACK

The lockable lightweight aluminium roof rack is very easy to install and use. It combines with a wide range of specialised carrying attachments to create true flexibility for exploring life's leisure potential.

C. ROOF BOX

The high capacity yet streamlined design is ideal for touring holidays. It features interior luggage straps and has central locking and passenger side opening for added security and convenience.

D. LUXURY SKI HOLDER

Lockable design with a capacity for transporting six pairs of skis or four snowboards. The holder's carrier is extendable to simplify loading and unloading.

E. LUXURY ROOF BICYCLE HOLDER

Special grips for the bicycle wheels and frame maximise stability. Conveniently, the frame grip can be adjusted at roof height. A unique lockable anti-theft system protects both the holder and the bicycle.

SAFETY AND PROTECTION

A. CAR COVER

The easy way to protect against dust and extreme weather conditions. Customised tailoring to fit the CT 200h's size and contours makes the cover very easy to fit and remove.

B. LONG LUGGAGE MAT

Made of a robust PVC material to guard the upholstery and carpets against accidental damage. The mat is tailored to individually fit the seat and arm rest backs so that it remains firmly in place when they are folded flat.

C. DOOR HANDLE PROTECTION FILM

Dependable protection against minor paintwork scuffs and scratches. The transparent self-adhesive film fits unobtrusively around the CT 200h's door handles.

D. REAR BUMPER PROTECTION FILM

Custom shaped transparent self-adhesive film to guard the rear bumper paintwork against accidental scratching when loading or unloading the trunk.

E. WIND DEFLECTORS

Lexus wind deflectors are aerodynamically shaped to complement the CT 200h's streamlining. When driving with the windows open, they maintain passenger comfort by reducing wind noise and turbulence within the cabin.

SAFETY AND PROTECTION

A

A. BABYSAFE PLUS RESTRAINT SEAT

Comfort and security for babies from birth up to around 9 months (up to 13 kg). An integral retractable canopy offers extra protection against the sun and wind.

B

B. DUAL PLUS ISOFIX RESTRAINT SEAT

For children of between 9 months and 4 years (approximately 9 to 18 kg). For maximum safety the seat locks into the rear ISOFIX bars to anchor directly to the car body and also has a top tether to prevent forward tipping. Deep padded wings increase side impact protection.

C

C. KID RESTRAINT SEAT

Height adjustable for children between 4 and 12 years (approximately 15 to 36 kg). A booster seat and adjustable head rest add flexibility for a growing child.

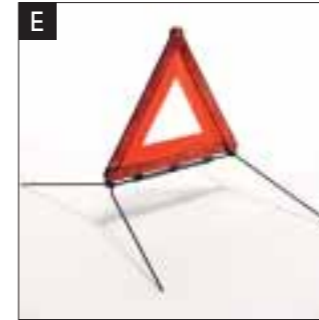

D

D. FIRE EXTINGUISHER

Carrying a fire extinguisher is perfectly logical. Dealing quickly and effectively with a glowing ember prevents the situation escalating.

E

E. WARNING TRIANGLE

Who knows what lies around the next corner? Carrying a warning triangle is good preparation for the unexpected.

F

F. FIRST AID KIT

The Lexus first aid kit contains everything needed to treat those little cuts and scrapes that can so easily happen.

G

G. REFLECTIVE JACKET

See and be seen is a golden rule of personal safety. The Lexus reflective jacket is designed for high visibility.
