IS F
ACCESSORIES

The IS F is the fastest production Lexus ever made. Its exclusive "F" designation stands for 'Fuji Speedway', where the IS F was developed and tested. This is a car built to satisfy your passion for high performance driving both on and off the track.

Yet, true to Lexus ideals, the IS F also personifies sophisticated luxury. Its very essence contributes a sense of well being. Genuine Lexus accessories extend the concept even further. With Lexus accessories you can add those special touches that enhance the unique relationship between you, your car and the way you choose to live.

Reassuringly, each accessory has been conceived by Lexus purely for Lexus cars and Lexus drivers. The integration is seamless. The functionality is smooth and efficient. And the quality is everything to be expected from Lexus' famous pursuit of perfection.

HIGH TECH AND ENTERTAINMENT

A. HOMELINK®

HomeLink® can be programmed to activate up to three home automation systems such as your drive gates, garage doors and security lighting.

B. BLUETOOTH® COMPLEMENTARY KIT

Safe, easy, well-organised telecommunications are at the heart of the Lexus Bluetooth® complementary kit. The cable-less cradle not only keeps your phone secure but also recharges the battery as you drive. Plus, there's a discreet external antenna to enhance reception and help minimise the effects of electro-magnetic interference. Importantly you can take the cradle and your phone* to use in another car fitted with the same system. Similarly, if you change your phone, all you need do is change the cradle and not the whole kit.

C. IPOD® INTEGRATION KIT

The kit's innovative technology integrates your iPod® with the IS F's superb sound system. It has steering wheel switches for easy operation and also recharges your iPod® as you drive.

* Contact your local Lexus Retailer for details of phone compatibility.

TRANSPORT AND STORAGE

B

A. LUGGAGE BOX

A high capacity interior and streamlined exterior make the Lexus luggage box ideal for touring holidays. Special features include passenger side opening and central locking for added security.

B. BARRACUDA BICYCLE HOLDER

Trouble-free transportation of your bicycle is assured by the Barracuda's deep moulded wheel grip. Protection for both the holder and your bicycle is provided by a unique anti-theft locking system.

C. SKI HOLDERS

You have two sizes to choose from. The small ski holders will take four pairs of skis or two snowboards, and the large size will take six pairs of skis or four snowboards. Both designs are lockable and made of lightweight aluminium.

D. ROOF RACK

The Lexus roof rack gives you enormous flexibility for exploring life's leisure potential. Its lockable lightweight aluminium design is quick to install and can be combined with a wide range of specialised attachments.

TRANSPORT AND STORAGE

A. HORIZONTAL CARGO NET

Luggage sliding around the boot is an unwelcome distraction in a car with such precise cornering as the IS F. The horizontal cargo net eliminates the problem by holding bags and cases firmly in place.

B. VERTICAL CARGO NET

Made of strong woven nylon, and with two separate compartments, the vertical cargo net is perfect for securing smaller possessions. It clips easily to pre-fitted hooks in the boot.

SAFETY AND PROTECTION

A. BABYSAFE

The Babysafe provides assured comfort and care for babies aged up to around 15 months (to 13 kg). Its design increases side impact protection, and there's an adjustable canopy to guard against the sun and wind.

B. DUO PLUS (ISOfix)

Especially for children aged between eight months and four years (approximately 9 to 18 kg).

The Duo Plus anchors directly to the car body by locking in to the rear seat ISOfix bars while attaching with a top tether for added stability. Ergonomic cushioning and an integral seat belt maximise comfort and security.

C. KID

The Kid restraint seat is for children of between three and 12 years (approximately 15 to 36 kg). It has an adjustable headrest to keep pace as your child grows and is designed to ensure correct seat belt positioning and optimum impact protection.

SAFETY AND PROTECTION

A. TEXTILE FLOOR MATS

With a black finish to complement your car's interior, Lexus velour floor mats are easy to clean, practical and very stylish. The driver's mat has special underside fixings to hold it firmly in place.

B. TRUNK LINER

The liner has an anti-slip surface pattern to help stop your possessions moving around and a raised lip that prevents liquids seeping at the edges. Outdoor clothing, riding boots, even wet and muddy sports equipment can be accommodated without risk.

C. FOOT REST

That final detail for rear seat passenger comfort. The foot rest's adjustable height and high quality polyamide-velour covering make it an ideal accompaniment for any journey.

SAFETY AND PROTECTION

A. FIRE EXTINGUISHER

It makes sense to have a fire extinguisher with you. Dealing quickly and effectively with a smouldering ember stops it becoming an inferno.

B. WARNING TRIANGLE

Who knows what lies around the next corner? Carrying a warning triangle is good preparation for the unexpected.

C. FIRST AID KIT

The Lexus first aid kit contains everything you need to treat those little cuts and scrapes that can so easily happen.

D. REFLECTING JACKET

See and be seen is a golden rule of personal safety. You'll certainly stand out when wearing a Lexus reflecting jacket.
