

A high-contrast, black and white close-up photograph of a car wheel. The focus is on the center hub, which features the Lexus logo. The spokes of the wheel are visible, creating a series of curved, metallic shapes that catch the light, creating bright highlights and deep shadows. The overall aesthetic is sleek and modern.

BALANCED PURITY

The philosophy behind the Lexus IS takes its lead from Japanese cultural values of balance, purity, elegance and, of course, hospitality. This is a car designed and built to help you relax and enjoy life. Its very essence contributes to a sense of well being and wealth of spirit.

Genuine Lexus accessories extend that philosophy even further. The accessory range has been conceived by Lexus designers purely for Lexus cars and Lexus drivers. Installation is easy, integration is seamless and you have the absolute assurance of quality and functionality. Each item invites a personal expression of added style, practicality or technical enhancement.

The pursuit of perfection is fundamental to everything Lexus. It is a thought process that continually seeks to innovate, improve and unify. Driving the IS fitted with your choice of Lexus accessories is the embodiment of such thinking.

DESIGN

Lexus alloy wheels are precision engineered to optimise balance, low weight and strength.

A. 18" ALLOY WHEELS, L15

A classic multi-spoke sports design. The clean smooth lines are unmistakably Lexus.

C. 18" ALLOY WHEELS, L5

A bold five spoke wheel design that emphasises the IS' look of power and performance.

B. 18" ALLOY WHEELS, L18

The geometric design adds a distinctive style highlight to the sophisticated contours of the IS.

D. 17" ALLOY WHEELS, WINTER RIM

Contemporary Lexus styling in an alloy wheel especially made for winter tyres.

A

DESIGN

A. REAR SPOILER

Sculptural in appearance, the rear spoiler integrates seamlessly with the smooth visual contours of your IS.

B. LOWERING SPRINGS

Lowering springs reduce vehicle height to create a very sporty low-slung look. They integrate with and complement your car's original shock absorbers.

HIGH TECH AND ENTERTAINMENT

PREMIUM IN-CAR ENTERTAINMENT

Travel becomes even more pleasurable with the premium in-car entertainment system. Its immaculately styled seat-back DVD units incorporate 8" LCD screens for superb high definition viewing.

A. REMOTE CONTROL

Touch sensitive buttons on the DVD units are complemented by a remote control for the ultimate user convenience.

B. INFRARED HEADPHONES

To conserve battery life, the wireless headphones automatically switch off when removed from the user's head.

C. USB COMPATIBILITY

Having a separate slot for a USB memory stick means that passengers can watch their favourite downloaded movies, TV programmes and music videos.

D. SD CARD COMPATIBILITY

The SD slot enables you to plug the card from your camera into the entertainment system for top-quality viewing of photographs and home videos.

E. DISC AND GAMES COMPATIBILITY

The entertainment system supports virtually all disc formats and games consoles.

HIGH TECH AND COMMUNICATIONS

A. BLUETOOTH® COMPLEMENTARY KIT

The Bluetooth® complementary kit adds an extra touch of convenience to Lexus cars already enabled for Bluetooth® communications. It has a discreet external antenna to enhance reception and features a cable-less cradle that secures your phone* while also charging its battery. Importantly, the cradle can be used in other cars fitted with the same system.

BLUETOOTH® HANDS-FREE PHONE SYSTEM

The Bluetooth® hands-free phone system is the ideal accessory if your Lexus IS is not enabled for Bluetooth® communications as standard. Steering wheel controls and comprehensive voice recognition commands including voice operated dialling epitomise the system's user friendly design.

*Contact your Lexus Retailer for details of phone compatibility.

B. IPOD® INTEGRATION KIT

Integrated technology lets you play your iPod® through the IS's superb sound system. Steering wheel switches ensure easy operation, and it will recharge your iPod® as you drive.

C. HOMELINK®

HomeLink® lets you operate up to three home automation systems using a control unit permanently mounted within your car. For instance, it can be programmed to activate your security lighting and open or shut your drive gates and garage doors.

TRANSPORT AND STORAGE

A. BARRACUDA BICYCLE HOLDER

Safe transportation is assured because the Barracuda's moulded retainer securely grips the wheels of your bicycle. A unique lockable anti-theft system protects both the holder and bicycle.

B. LUGGAGE BOX

The high capacity yet aerodynamic luggage box is ideal for touring holidays. Interior straps hold the contents neatly in place. Central locking and passenger side opening add to the security and convenience.

C. SKI BOX

A smooth aerodynamic profile disguises the big dimensions and flexible carrying capacity of the Lexus ski box. Central locking and passenger side opening enhance security and ease of use.

D. ROOF RACK

The Lexus roof rack combines with a wide range of specialised optional attachments to create added flexibility for exploring life's leisure potential. Its lockable lightweight aluminium design is easy to install and use.

E. SKI HOLDERS

A choice of two ski holders offers maximum flexibility for the winter sports season. The small holders secure four pairs of skis or two snowboards, and the large holders secure six pairs of skis or four snowboards. Both are height adjustable, lockable and made of lightweight aluminium.

F. SURFBOARD / MAST HOLDERS

The awkward shape of a surfboard or a wind-surfboard and mast is easily and securely accommodated by the Lexus holders.

F

TRANSPORT AND STORAGE

A. DETACHABLE TOWING HITCH

With so much power under the IS bonnet you have plenty to spare for towing. A jet-ski or sports trailer perhaps? You can do it with the purpose designed Lexus detachable towing hitch. It gives you up to 1500 kg towing capacity and comes with a dedicated wiring kit.

A. HORIZONTAL CARGO NET

The last thing you want in a car as smooth and quiet as the IS is the distraction of luggage sliding in the boot. Relax; a horizontal cargo net will protect your serenity.

B. VERTICAL CARGO NET

So simple in concept and yet so reassuringly practical. The vertical cargo net clips neatly onto pre-fitted hooks in the boot to hold small items firmly in place.

SAFETY AND PROTECTION

A. PARKING AID SYSTEM LPA400 / LPA800

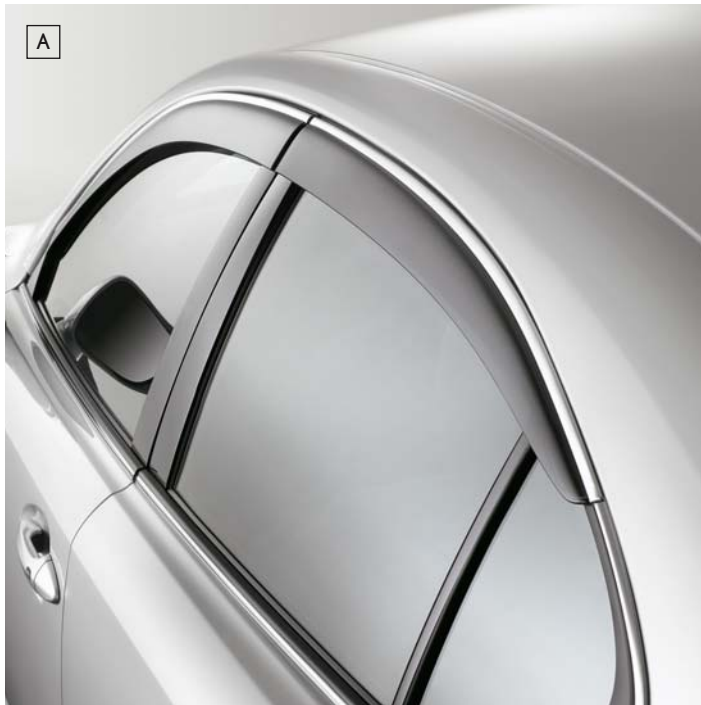

Even in a car as manoeuvrable as the IS, you'll find the Lexus parking aid system an asset in busy car parks and when reversing close to low objects.

You have a choice of the LPA400 system with four rear sensors or the LPA800 with four rear and four front sensors. When the system is engaged, the sensors link to an interior audio warning that becomes progressively louder the closer your vehicle gets to an obstacle.

A. WIND DEFLECTORS

You can drive in comfort while still enjoying the fresh-air appeal of wide open windows. Lexus wind deflectors integrate with the IS' contours to reduce wind turbulence and noise within the cabin.

B. REAR BUMPER PROTECTION FILM

Ideal for preventing paintwork scratches when loading or unloading the boot. The film is transparent, self-adhesive and shaped for a perfect fit.

C. WHEEL LOCKS

You can maximise protection for your valuable alloys by simply replacing one nut on each wheel with a Lexus wheel lock. A rounded profile and unique coded key make the locks virtually impossible to remove with a conventional spanner.

D. DOOR HANDLE PROTECTION FILM

High usage inevitably makes door handles prone to minor scratching. This transparent, self-adhesive film provides dependable protection.

SAFETY AND PROTECTION

A. BABYSAFE ISOFIX RESTRAINT SEAT

Assured comfort and side impact protection for babies aged up to around 15 months (to 13 kg). Special features include an adjustable canopy to guard against the sun and wind.

B. DUO PLUS ISOFIX RESTRAINT SEAT

Dependable protection for children aged between eight months and four years (approximately 9 to 18 kg). Ergonomic cushioning and an integral seat belt maximise comfort and security.

C. KID ISOFIX RESTRAINT SEAT

For children of between three and 12 years (approximately 15 to 36 kg). It has an adjustable headrest and is designed to ensure correct seatbelt positioning and optimum impact protection.

ISOFIX

For maximum safety, ISO fix child restraint seats have a simple push-click operation to lock the seat into your Lexus' rear ISO fix bars and so anchor it directly to the car body. An integral top tether (applicable for the Duo Plus seat) increases stability by helping to prevent the seat tipping forward.

SAFETY AND PROTECTION

A. TEXTILE FLOOR MATS

Easy to clean, practical and very stylish. Lexus textile floor mats are available in either velour or needle felt and in a range of co-ordinated colours. A special floor fixation holds them firmly in place for added safety.

B. RUBBER FLOOR MATS

For the ultimate protection against the very worst conditions. The set includes two front and two rear mats, with each tailored to the floor contours for a perfect non-slip fit.

C. TRUNK LINER

The waterproof trunk liner maximises protection for your boot carpet. Outdoor clothing, riding boots, even a wet-suit can be accommodated without risk. A special anti-slip surface pattern helps stop luggage sliding around.

D. FOOT REST

That final detail for rear seat passenger comfort. The adjustable height and relaxing soft velour covering make the Lexus foot rest an ideal accompaniment for any journey.

CAR CARE AND SAFETY

A. FIRE EXTINGUISHER

It makes sense to have a fire extinguisher with you. Dealing quickly and effectively with a smouldering ember stops it becoming an inferno.

B. WARNING TRIANGLE

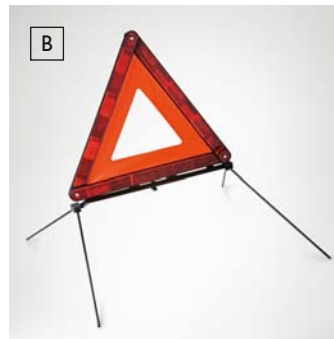

Who knows what lies around the next corner? Carrying a warning triangle is good preparation for the unexpected.

C. FIRST AID KIT

The Lexus first aid kit contains everything you need to treat those little cuts and scrapes that can so easily happen.

D. REFLECTING JACKET

See and be seen is a golden rule of personal safety. You will certainly stand out when wearing a Lexus reflecting jacket.
