 LEXUS

# DESIRE

The philosophy at the heart of everything Lexus is to continually innovate, improve and unify. That spirit of perfection inspired the development of the new Lexus LS. Fusing advanced technologies with sensory and emotional engagement, the LS fundamentally redefines the meaning of a luxury sedan.

Genuine Lexus accessories extend the concept even further by introducing extra touches of individuality. The accessories integrate seamlessly with LS petrol and hybrid models. Their functionality is smooth and efficient. And the quality is without question.

Refinement and choice are embodied in every aspect of the LS and its accessory range. Together, the sensation is automotive sophistication in the purest sense.

# DESIGN

A + B. 19" ALLOY WHEELS

The LS's powerful sports performance was the primary visual influence in the design of the multiple spoke 19" alloy wheels. They are available in either a silver (image A) or chrome dusted finish (image B) and are ideal for both petrol and hybrid cars.

C. WHEEL LOCKS

Replacing one nut on each wheel with a Lexus wheel lock maximises alloy wheel security. A rounded profile and coded key make the locks virtually impossible to remove with a conventional spanner.

D. 18" ALLOY WHEELS

Smooth, distinctive and extremely stylish. Lexus 18" alloy wheels reflect and enhance the sophisticated design themes of the LS. They have been created especially for petrol engined cars.

# TECHNOLOGY

## A. DAB

Upgrades the integrated tuner within the LS's navigation system to receive digital audio broadcasting. Operation is via clearly defined touch-screen controls on the central Electric Multi-Vision (EMV) display.

## B. HOMELINK®

HomeLink® will operate up to three home automation systems from a control unit permanently mounted within the LS. For instance, it can be programmed to activate security lighting and open or shut drive gates and garage doors. The control unit is colour co-ordinated to the interior.

## C. BLUETOOTH® COMPLEMENTARY KIT

Adds extra convenience when using a Bluetooth® phone\*. A discreet external antenna enhances reception and there's a cable-less cradle to secure the phone and charge its battery. Conveniently, the cradle can be used in other cars fitted with the same system.

\*Contact your Lexus Retailer for details of phone compatibility.

# INTERIOR

A. FOOT REST

Especially designed for passenger comfort. The adjustable height and relaxing soft velour covering makes the Lexus foot rest an ideal accompaniment for any journey.

B. TEXTILE FLOOR MATS

Luxurious and stylish yet eminently practical. Lexus textile floor mats are tailored for a precise fit and have special fixations to hold them firmly in place. The mats are made of acuvelour, which complements the sound absorbing characteristics of the LS's carpets. They are available in a range of colours to match the original interior.

B. TEXTILE FLOOR MAT (MELLOW WHITE)

C. TEXTILE FLOOR MAT (IVORY)

D. TEXTILE FLOOR MAT (LIGHT GREY)

E+F. TEXTILE FLOOR MAT (BLACK)

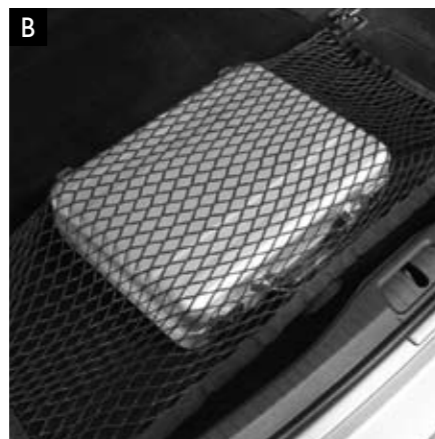

# STORAGE AND TRANSPORT

A. VERTICAL CARGO NET

So simple in concept and yet reassuringly practical. The net clips neatly on to pre-fitted hooks in the trunk to hold smaller items firmly in place.

B. HORIZONTAL CARGO NET

Luggage or bags sliding in the trunk can be a distraction to the LS's ultra quiet ride. The horizontal cargo net provides a convenient time-proven solution.

C. ROOF RACK

The lockable lightweight aluminium roof rack is very easy to install and use. It combines with a wide range of specialised options to create true flexibility for exploring life's leisure potential. Suitable for LS short wheelbase models only.

D. LUXURY BICYCLE HOLDER

Maximum stability during transportation is assured by the holder having both wheel and frame grips. Conveniently, the frame grip can be adjusted at car roof height. A unique lockable anti-theft system protects both the holder and the bicycle.

E. SKI HOLDER

Lockable design for skis and snowboards. Available in small, medium and large sizes including the large luxury ski and snowboard holder with its extendable carrier for easy loading and unloading.

F. LUGGAGE BOX

The high capacity yet streamlined design is perfect for touring holidays. Interior straps hold the contents neatly in place. Central locking and passenger side opening enhance security and convenience.

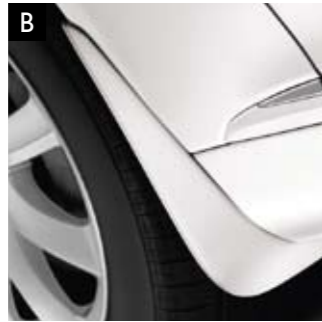

# PROTECTION

**A. REAR BUMPER PROTECTION FILM**

Dependable protection against paintwork scuffs and scratches. The transparent self-adhesive film is custom shaped to fit the LS's rear bumper contours.

**B. MUD FLAPS**

The mud flaps are uniquely styled for the LS's front and rear wheel arches. They reduce spray on wet roads and help protect paintwork from mud and stone chip damage.

**C. CAR COVER**

Individual tailoring to fit the LS's sweeping contours makes the car cover easy to fit and remove. It provides reliable protection against dust and extreme weather conditions. Available for both long and short wheelbase models.

**D. WIND DEFLECTORS**

The wind deflectors reduce turbulence and wind noise within the cabin to enhance passenger comfort and create the ultimate open-window driving experience. Available for both long and short wheelbase models.

**E**

**E. BABYSAFE PLUS RESTRAINT SEAT**

Comfort and security for babies from birth up to around 9 months (up to 13 kg). An integral retractable canopy offers extra protection against the sun and wind.

**F**

**F. DUO PLUS ISOFIX RESTRAINT SEAT**

For children of between 9 months and 4 years (approximately 9 to 18 kg). For maximum safety the seat locks into the rear ISO fix bars to anchor directly to the car body and also has a top tether to prevent forward tipping. Deep padded wings increase side impact protection.

**G**

**G. KID RESTRAINT SEAT**

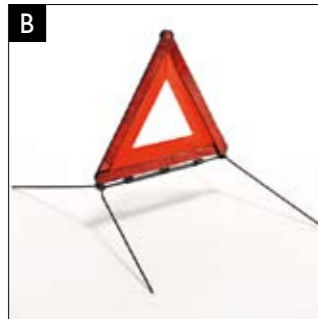

Height adjustable for children between 4 and 12 years (approximately 15 to 36 kg). A booster seat and adjustable head rest add flexibility for a growing child.

# SAFETY

A. FIRE EXTINGUISHER

Carrying a fire extinguisher is perfectly logical. Dealing quickly and effectively with a glowing ember prevents the situation escalating.

B. WARNING TRIANGLE

Who knows what lies around the next corner? Carrying a warning triangle is good preparation for the unexpected.

C. FIRST AID KIT

The Lexus first aid kit contains everything needed to treat those little cuts and scrapes that can so easily happen.

D. REFLECTING JACKET

See and be seen is a golden rule of personal safety. The reflecting jacket is designed for high visibility.
